An illustration of Uncle Sam, depicted as an elderly man with white hair, wearing a top hat with stars and stripes, and a suit with stars and stripes. He is sitting at a desk, writing with a fountain pen. A large, detailed fountain pen is shown at the top of the advertisement, with the text "WATERMAN'S IDEAL FOUNTAIN PEN, N.Y." and "CLIP-CAP" visible. The background shows a desk with papers and a lamp. The text "Waterman's Ideal Fountain Pen" is written in a stylized font in the upper right corner.

For School Life or Life's School

Use This Pen During the Learning Years
It Will Help You Through the Earning Years

Waterman's Ideal Fountain Pen

"It saves the dip that distracts"

Although writing is a practice that one cultivates all his life, there had never been a notable step in improving the means for doing it until the invention of Waterman's Ideal Fountain Pen. This pen effectively combines point, ink and holder into one implement, which is convenient and secure to carry in the pocket. Since its perfection, a quarter of a century ago, it has become the universally adopted writing equipment; it is used in schools and colleges as a part of education, and is adopted in commercial and social life as an absolute necessity. One Waterman's Ideal will last for years.

The history of Waterman's Ideals is one of continuous success, and the enormous business in back of it is in proportion. Perfection is the only standard, and Permanency the result. Illustrated catalogue mailed on request.

Made in Standard, Safety and Self-Filling Types.

Washing
Fine
Fabrics

Washing fine fabrics is a matter of concern to every woman. To get fine fabrics spotlessly clean by ordinary methods, hard rubbing is necessary; yet hard rubbing is injurious to plain, as well as delicate, fabrics.

A few housewives have for a long time known how to solve the problem, but the vast majority of women have not known it. The problem has been how to get out the dirt and grease without hard rubbing. The Parowax brand of Pure Refined Paraffine does this.

Parowax used in this way saves a great deal of labor. It makes the usual hard rubbing unnecessary and prevents injury to the most delicate fabric. The reason is that it does away with the hard rubbing on the washboard.

You simply put one-half teacup of shaved Parowax and the usual quantity of shaved soap in the hot water in the boiler, which is sufficient for one boiler of wash. After taking clothes from boiler be sure to rinse them thoroughly in warm water — and your clothes will be clean and white as when new. Parowax leaves no odor in the clothes.

To protect the user, the trade-mark "Parowax" has been given to the grade of Pure Refined Paraffine sold by this Company for years. This absolutely pure paraffine has been used all these years for sealing jellies, etc., and for washing and ironing.

Dealers everywhere sell the Parowax brand of Pure Refined Paraffine. Beware of articles offered as substitutes. Look for the name of the

Standard Oil Company

(Incorporated)
